- 1. Administrative Support Unit staff will use a **blue highlighter marker** to place a **diagonal line** across the label of cases designated as being part of the <u>Varshavsky</u> Litigation (NYS6). It is no longer necessary to affix an orange sticker on the case file.
- Administrative Support Unit staff will forward the <u>Varshavsky</u> (NYS6) fair hearing files (integrated with the regular case files) to the File Management Unit.
- 3. File Management Unit staff will continue to put the case files in fair hearing number order and will continue to match the fair hearing decision copy to the fair hearing files; however, the case files that have been designated as <u>Varshavsky</u> (NYS6), will be pulled and set aside from the other fair hearing case files. On a daily basis, the <u>Varshavsky</u> cases will be put into fair hearing number order and placed in a labelled miracle box, to be retained separately, so as not to be destroyed at the end of the three-year retention period.

At such time as staff request files from the File Management Unit, it is important to circle the NYS6 agency designation, or write it clearly on the printout, so that File Management staff will be alert to searching in the appropriate box. To ensure separate storage, files with blue highlighting should be returned directly to the File Management Unit to the attention of Joe Verrastro rather than being placed in the refile box.

Administrative Law Judges Please Note:

For all homebound telephone hearings designated 997 (NYS6) when the appellant appears, it is important that the 997 issue code be deleted from the Fair Hearing Data Sheet (FH-019). Also, a notation, "Delete NYS6," should be made in the "Remarks/Changes" section of the file jacket since appellants who appear at a regularly scheduled hearing are not subject to the Varshavsky protection.
