Attachment A Preparation of Team TAG Training Verification Document Packet

 Please use Print on Demand to obtain copies of forms.

Preparation of Team TAG Training Verification Document Packet

After successfully scanning the documents, the images captured will be electronically stored in a folder associated with the proper case number. In the Paperless Office System (POS), the JOS/Worker must index the scanned documents. To do so the JOS/Worker must:

- Select **Tools** from the menu bar in POS.
- Select **Digital Sender Image Indexing**.

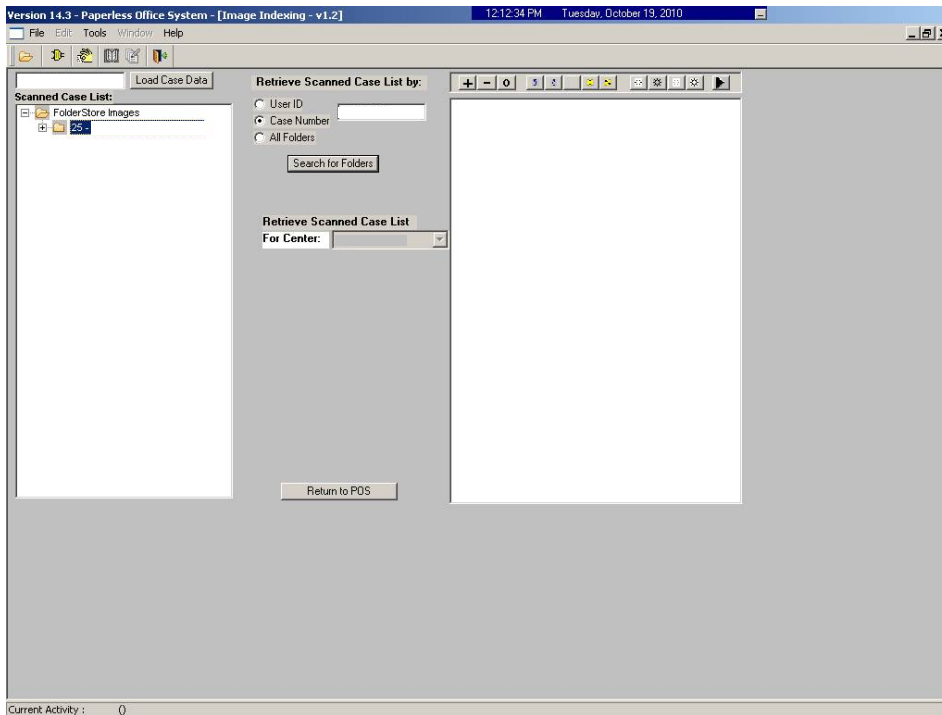

POS will then access the **Image Indexing** application.

After a successful search is completed, a list of scanned cases associated with the **UserID** will appear in the **Scanned Case List:** field. To select a particular case the JOS/Worker must:

- Click on the desired case.

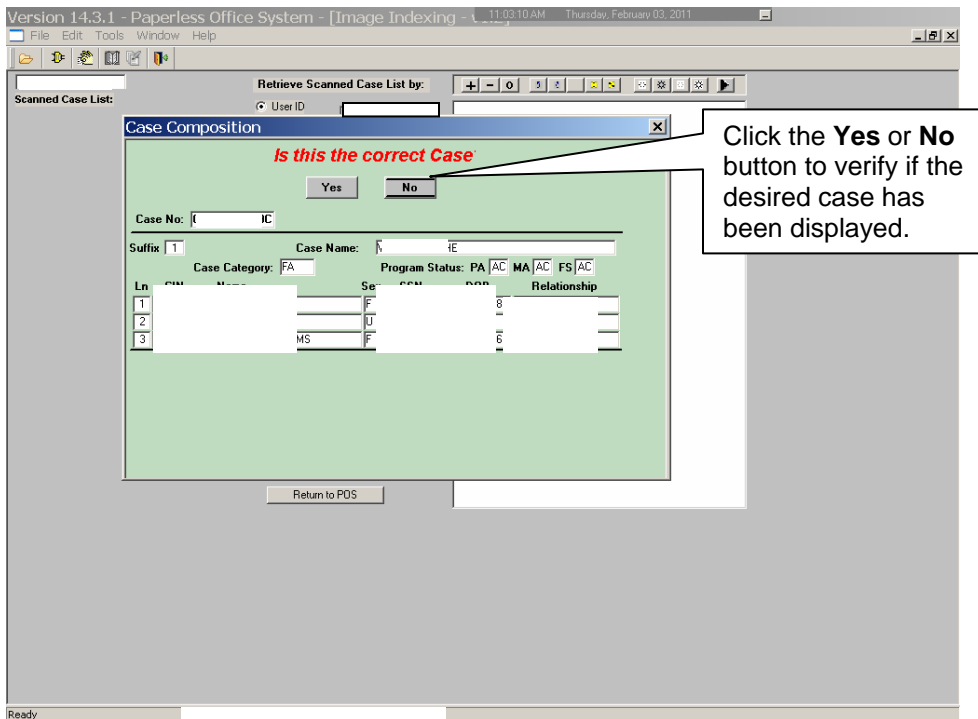

Preparation of Team TAG Training Verification Document Packet

The case number selected will populate the **Load Case Data** field.

- Click **Load Case Data** button.

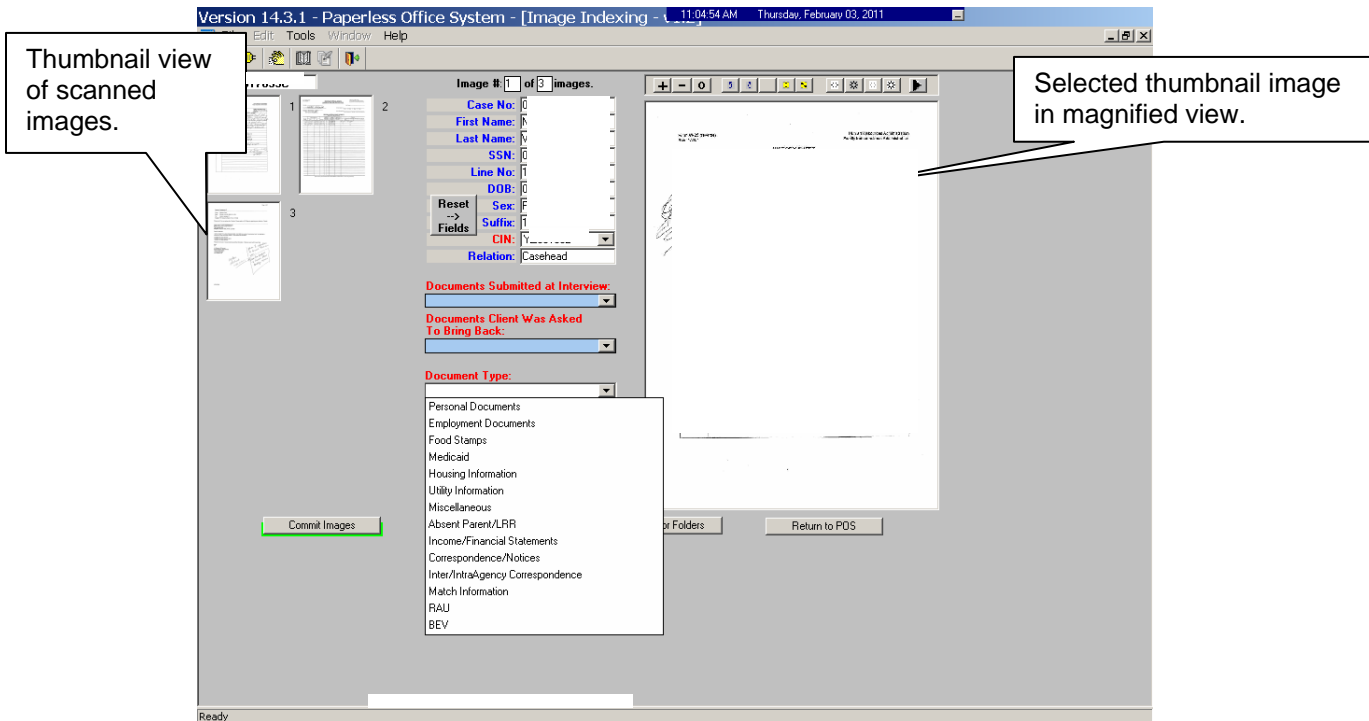

Preparation of Team TAG Training Verification Document Packet

After the JOS/Worker clicks on the **Load Case Data** button, the **Case Composition** screen appears with information pertinent to the case.

- If the information in the pop-up box is incorrect, select “**No**” and the application will take you back to the **Image Indexing** screen to reenter the correct **Case Number** in the **Load Case Data** field.
- If the **Case Number** and **Case Name** in the pop-up box are correct, select “**Yes**” to proceed to the “**Digital Index Imaging Screen.**”

Preparation of Team TAG Training Verification Document Packet

POS displays all the images that were scanned by the JOS/Worker in a thumbnail view. If there are more than eight images, a scroll bar will appear that will allow the JOS/Worker to view/access additional thumbnail images.

On the far right side is a magnified view of the document thumbnail selected. The JOS/Worker can view any of the images in magnified view by clicking on the thumbnail of the scanned document. At the top of this area, there is a Tool Bar, which is utilized to change the appearance of the selected image.

The JOS/Worker must verify that all documents that are to become part of the image have been scanned properly. If a document was incorrectly scanned or inadvertently added, it can be selected, deleted, and/or re-scanned.

Combining Images

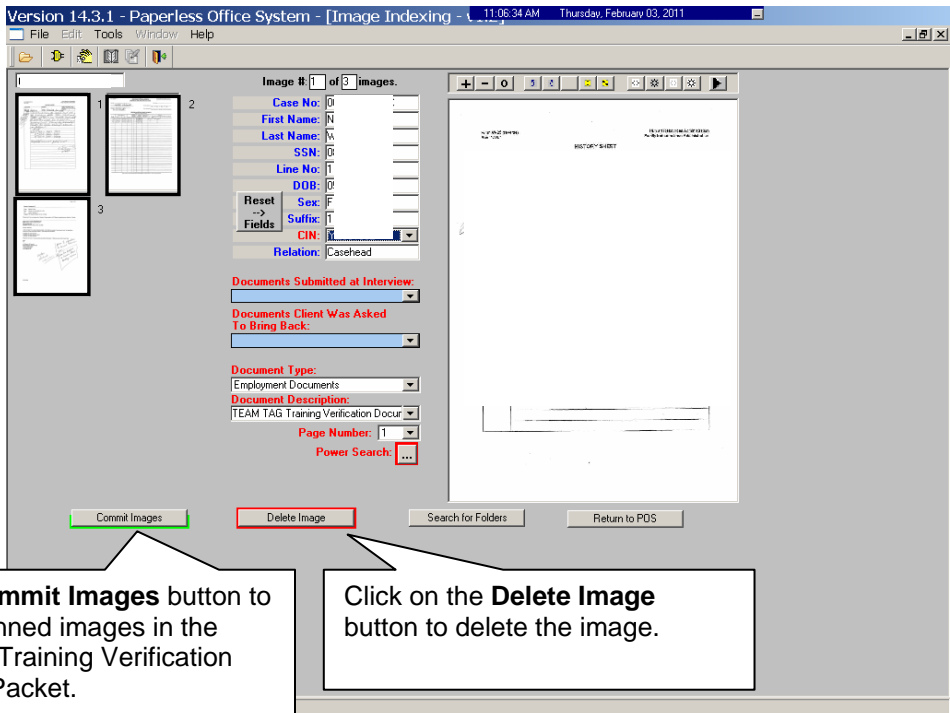

The screenshot shows the 'Image Indexing' window of the Paperless Office System. On the left, a grid of three document thumbnails is shown. The first thumbnail is highlighted with a red border, indicating it is selected. A callout box points to this thumbnail with the text: 'Press and hold **CTRL** key and click on the images to include in the Team TAG Training Verification Document Packet.' In the center, a metadata form is visible, including fields for Case No., First Name, Last Name, SSN, Line No., DOB, Suffix, CIN (set to 9299108E), and Relation (Casehead). Below these are dropdown menus for 'Documents Submitted at Interview', 'Documents Client Was Asked To Bring Back', and 'Document Type' (set to 'Employment Documents'). The 'Document Description' dropdown is set to 'TEAM TAG Training Verification Docur'. A 'Page Number' dropdown is set to '1', and a 'Power Search' button is visible. A callout box points to the 'Document Type' dropdown with the text: 'Select **Employment Documents** from **Document Type** drop-down menu.' Another callout box points to the 'Document Description' dropdown with the text: 'Select **Team TAG Training Verification Document Packet** from **Document Description** drop-down menu.'

To combine scanned images to be included in the packet, press and hold the **CRTL** key and click on the individual images. Images selected are illuminated with a blue border. The image displayed in the normal viewer is illuminated in red.

To properly label and classify the scanned documents the JOS/Worker must:

- Select **Employment Documents** from the **Document Type** drop-down menu.
- Select **Team TAG Training Verification Document Packet** from the **Document Description** drop-down menu.

Preparation of Team TAG Training Verification Document Packet

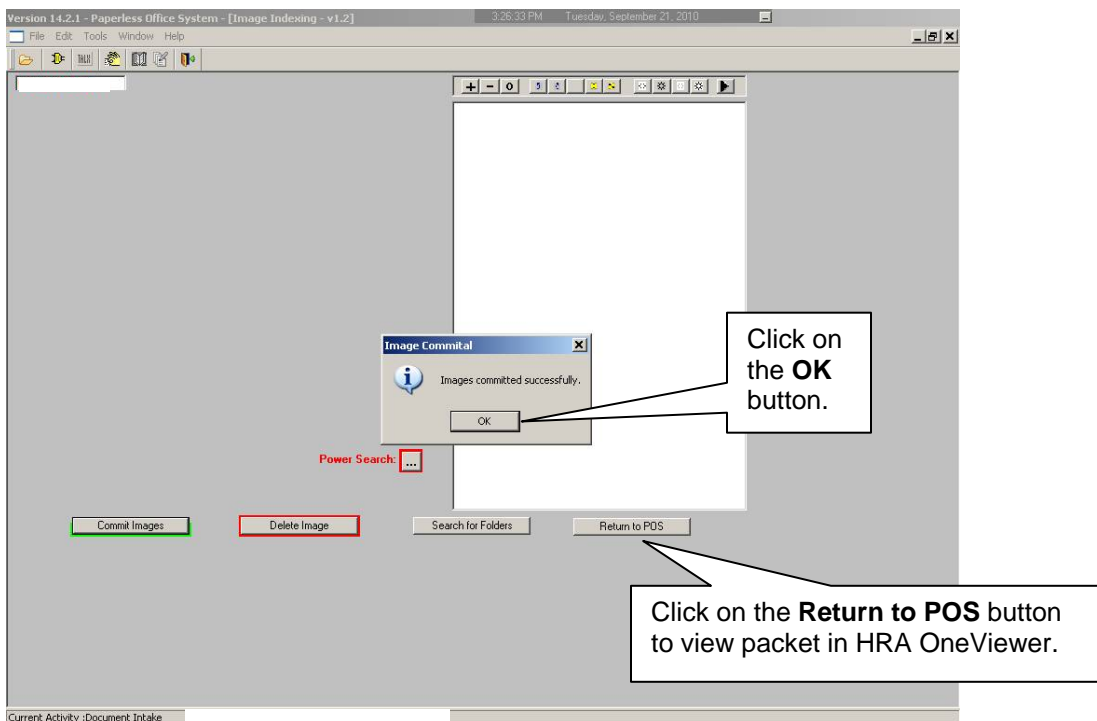

Once the JOS/Worker has selected all the images that are to be indexed and the required fields have been populated with information, the JOS/Worker can commit the images. To commit the images:

- Click on the **Commit Images** button to include scanned images in the Team TAG Training Verification Document Packet.

If an image should be deleted from the folder, the JOS/Worker must:

- Click on the thumbnail image to be deleted.
- Click on the **Delete Image** button.

Preparation of Team TAG Training Verification Document Packet

When the images have been successfully combined into the Team TAG Training Verification Document Packet, an **Image Committal** information window will appear with the message “**Images committed successfully**”. The JOS/Worker must:

- Click the **OK** button.

To exit the **Image Indexing** application:

- Click on the **Return to POS** button; or
- Go to **File** and select **Close**.
