COVID-19 EMERGENCY SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM ALLOTMENTS FOR JUNE 2021

<p>Date: June 17, 2021</p>	<p>Subtopic(s): COVID-19 SNAP Supplements</p>
<p>New Minimum SNAP Supplement Amount</p>	<p>The purpose of this policy bulletin is to inform staff that emergency Supplemental Nutrition Assistance Program (SNAP) benefits will be issued by the Office of Temporary Disability and Assistance (OTDA) to all SNAP households who were issued benefits for June 2021.</p> <p>The benefits will be issued as a result of the March 18, 2020 enactment of the Families First Coronavirus Response Act of 2020.</p> <p>From March 2020 through March 2021, emergency supplemental SNAP benefits were issued only to SNAP households that did not receive the maximum benefit for the household's size.</p> <p>Starting in April 2021, all households who were issued SNAP benefits for the month will be issued an emergency supplement by OTDA. This includes SNAP cases that are currently closed.</p> <p>SNAP households whose difference between the maximum SNAP allotment for their household size and their regular allotment is less than \$95 (including those who are already receiving the maximum allotment) will be issued a \$95 emergency supplement.</p> <p>For example, if a SNAP household of two was issued \$380 for June 2021, the household will be issued an emergency supplement of \$95 because the difference between the maximum SNAP allotment of \$430 for their household size and their \$380 allotment is less than \$95.</p> <p>Households whose difference between the maximum SNAP allotment for their household size and their regular allotment is more than \$95 will be issued an emergency supplement for the actual difference.</p>

Call 718-557-1313 then press 3 at the prompt followed by 1 or send an e-mail to *FIA Call Center Fax* or fax to: (917) 639-0298

For example, if a SNAP household of two was issued \$330 for June 2021, the household will be issued an emergency supplement of \$100 because the difference between the maximum SNAP allotment of \$430 for their household size and their \$330 allotment is more than \$95.

Households whose difference between the maximum SNAP allotment for their household size and their regular allotment is exactly \$95 will be issued an emergency supplement for \$95.

SNAP households are eligible for the emergency supplement even if they only received a pro-rated benefit for June 2021 because they applied for SNAP benefits after June 1st.

The SNAP supplements will be issued on a staggered basis from 06/16/2021 through 06/29/2021 based on the toe digit of the case.

The SNAP benefit supplements for CA/SNAP cases will be issued using single issuance code **20**. The SNAP benefit supplements for NCA SNAP cases will be issued using single issuance code **22**.

The unique authorization number for these payments is **20200113**.

OTDA will continue to search for cases that were not issued a SNAP supplement for June 2021. These households are eligible for a supplement even if they were not identified in the initial run. For example, households who were issued a pro-rated June 2021 SNAP benefit after the initial run, are still eligible for a supplement. Once found, these households will be issued supplements by OTDA.

After June 30, 2021, households who were issued a SNAP benefit for June 2021 and who have not already been issued a supplement by OTDA for June 2021, can be manually issued the supplement by JOS/Workers. CA/SNAP households should be supplemented using SNAP single issuance code **20** while NCA/SNAP households should be supplemented using SNAP single issuance code **22**.

Note: If staff are issuing retroactive SNAP benefits, they must also evaluate the household's eligibility for emergency supplements. As there was no minimum emergency supplements for months prior to April 2021, if the household is being issued the maximum allotment for their household size, no retroactive emergency supplements should be issued. For example, if a household of two is being reopened because of an agency error in March 2021 and the household is eligible for retroactive monthly SNAP benefits of \$430 based on their budget, no retroactive emergency supplement should be issued as the maximum for their household size was issued.

The maximum SNAP benefit amounts by household size are listed on the attached Guide to Supplemental Nutrition Assistance Program (SNAP) Budgeting (**W-204G**).

OTDA updated the Frequently Asked Questions for the Emergency Allotment of SNAP Benefits (**Attachment A**).

An exception report will be sent by OTDA to the Family Independence Administration (FIA) that will list the cases that were unable to be automatically issued the emergency supplement.

Effective June 1, 2021

Frequently Asked Questions for the Emergency Allotment of SNAP Benefits

Answers to many commonly asked questions about the Supplemental Emergency Allotment (EA) of Supplemental Nutrition Assistance Program (SNAP) Benefits.

What are supplemental EA SNAP benefits?

In March 2020, the federal Families First Coronavirus Response Act (FFCRA) was passed in response to effects of the public health emergency caused by COVID-19. The law authorized issuance of emergency allotment supplemental benefits to households receiving SNAP. Based on the law, beginning in March 2020, states were given permission to issue supplemental EA SNAP benefits to households not receiving the maximum benefit for the household's size. The amount of the supplement was the difference between the benefit the household normally would receive and the maximum for the household's size. States were given permission to issue the supplements as long as the state has either a disaster declaration or a state of emergency in effect, and as long as the federal public health emergency caused by the pandemic remains in effect. New York has issued the supplemental benefits every month since March 2020 and will continue issuing monthly EA SNAP benefits as long as the state's emergency declaration and the national public health emergency remain in effect.

Beginning in April 2021, the United States Department of Agriculture changed the supplementation policy and authorized the payment of a supplement of at least \$95 to all households receiving SNAP benefits.

Who qualifies for the supplemental EA SNAP benefits?

Beginning April 2021, all households receiving SNAP benefits will receive at least \$95 per month in supplemental EA SNAP benefits. This includes households already receiving the maximum SNAP benefit amount for their household size, and households that previously would have received a monthly supplement of less than \$95.

What is the maximum SNAP benefit amount for my family's size?

In March 2021, signed federal relief legislation extended the temporary 15% increase of maximum SNAP benefit amounts until September 2021. The current maximum monthly SNAP benefit amounts by household size are as listed:

Maximum Monthly SNAP Benefits

January-September 2021	
SNAP Household Size	Maximum Monthly Benefit Amount
1	\$234
2	\$430
3	\$616
4	\$782
5	\$929
6	\$1,114
7	\$1,232
8	\$1,408
Each additional person	+\$176

What if my household already got the maximum benefit for my household's size?

If you have been receiving the maximum SNAP benefit amount for your household's size and formerly were not eligible for a supplement, beginning in April 2021 you will receive a monthly supplemental EA SNAP benefit of \$95. If you have been receiving supplemental EA SNAP benefits of less than \$95 a month to bring your household's benefit to the maximum monthly amount for your household's size, you now will receive an EA SNAP supplemental benefit of \$95 a month. If you have been receiving EA SNAP supplemental benefits of at least \$95 a month to bring your household's benefit to the maximum monthly amount for your household's size, your monthly EA SNAP supplemental benefit amount will not change.

How much will I receive in supplemental EA SNAP benefits?

While New York State's emergency declaration and the federal public health emergency remain in effect, SNAP households are eligible to receive EA supplemental SNAP benefits in the amount that will bring them up to the maximum SNAP monthly benefit level for their household size or a supplement of \$95—whichever amount is greater.

For example, the maximum allowable monthly amount of SNAP benefits for a household of 4 people is \$782. If that household receives \$400 a month in normal SNAP benefits, they will receive a supplemental EA SNAP benefit of \$382. If the same household receives \$700 a month in normal SNAP benefits, the household would receive \$95 a month in supplemental EA SNAP benefits, instead of \$82, as would have been the case for months prior to April 2021.

Please note, benefit amounts will remain unchanged for households that have been already receiving EA SNAP benefits of at least \$95 per month.

Do I need to apply for supplemental EA SNAP benefits?

No, you do not need to apply for supplemental EA SNAP benefits. Households automatically receive their supplemental EA SNAP benefits on their EBT card.

If you are **not** currently enrolled in SNAP, the quickest way to apply for SNAP benefits is online at: www.myBenefits.ny.gov or <https://access.nyc.gov/> (if you live in New York City).

How will I know when my supplemental EA SNAP benefits are available?

You can find information about how to check your available SNAP balance on your EBT card at: <https://otda.ny.gov/workingfamilies/ebt/>.

What can I purchase with my supplemental EA SNAP s benefits?

The supplemental EA benefits are SNAP benefits. Like regular SNAP benefits, the supplemental benefits can be used to purchase food at authorized retail food stores. A detailed list of food items that may be purchased with SNAP benefits can be found at: <http://www.fns.usda.gov/snap/eligible-food-items/>.

Do I have to use my emergency SNAP supplemental benefits right away?

No. Unused SNAP benefits, including supplements, remain available and accessible on your EBT card for at least 274 days from the date they are issued.
