It is critical that New York State be prepared to act quickly and efficiently to a need for emergency food stamp issuance in response to disaster. The 9/11 tragedy as well as several other disasters stand as stark reminders not only of the importance of emergency preparedness but of the need for cooperation among federal, state, and local agencies to address the needs of disaster victims. To that end, it is imperative that we have up-to-date information on your district's Food Stamp contact in the event of a declared disaster. This will enable us to provide you with immediate program support and information during an emergency. Since contact numbers must be operational on a 24-hour basis, many districts choose to designate either their disaster operations center or the county sheriff's office.

For your convenience, we have included the 2004-2005 County Social Services Emergency Contact Numbers for review and update. To ensure that your county information is included in the State Food Stamp Disaster Plan we file with the U.S. Department of Agriculture and the State Emergency Management Office, please send the appropriate contact and phone number to OTDA by Friday, April 21, 2006. Information should be sent via e-mail to dave.staszak@otda.state.ny.us or by calling David Staszak at the number listed above. If your district contact information has not changed, please indicate there are no changes necessary. Your prompt response is essential.
