Chapter 538 - Placement of a Child in

[Assembly reprint 30004 by Senator Goodhue, et al.]

Authorizes the family court in a dispositional hearing to direct a social services district, which the court finds has not made reasonable efforts to prevent or eliminate the need for placement, to provide services pursuant to Section 1015-a of the FCA. Where the family court determines that additional time is necessary to provide such services, the dispositional hearing may be adjourned for a reasonable but unspecified period of time. Violations of such order could be punishable by contempt.

Requires service by mail of the notice of hearing and petition for extension of placement of an abused or neglected child in foster care upon the child's parent or other person legally responsible for the child. Service would be required at least eight days prior to the time for court appearance stated in the notice of hearing. The hearing could not be commenced without satisfactory proof of actual notice of the hearing. The family court may direct that service be made under Section 308 of the Civil Practice Law and Rules if proof of actual notice is not before the court.

Requires the family court to determine, as part of a hearing on the extension of a foster care placement, whether the situation which gave rise to the initial foster care placement still exists and/or the manner in which it has changed, whether the child's service plan should be adjusted, the degree of compliance with the family court order by both the respondent and supervising agency, whether an extension of placement is in the child's

best interest, whether the child would be at risk of abuse or neglect if returned to his or her home and any other factors the family court deems relevant. The family court's findings must be in writing. The respondent must be provided with a copy of the family court's order and the child services plan.

Chapter 823 - Residential Programs for Individuals
with Mental Illness or Developmental Disabilities
[Assembly 11879-A by the Committee on Rules]

Requires the Commissioners of the Office of Mental Health (OMH) and the Office of Mental Retardation and Developmental Disabilities (OMRDD) to conduct a review of all relevant State and federal statutes and State policies and regulations regarding the development and placement of residential programs for individuals with mental illness or developmental disabilities. The commissioners of OMH and OMRDD must submit a report to the Governor, the Speaker of the Assembly and the Temporary President of the Senate no later than May 1, 1993. The report must describe any steps taken to achieve the stated objectives of the review and make recommendations for any additional statutory or administrative actions that should be taken.

Directs the Commissioner of the Department of Social Services (Department), in consultation with the Commissioners of OMH and OMRDD and all other relevant State agencies, to review the Statewide Registry of Community Residential Facilities (Registry). The Commissioner of this Department must report to the Governor, the Speaker of the Assembly and the Temporary President of the Senate no later than May 1, 1993, on the status of the Registry. The report would evaluate whether the information in the Registry is current and complete and provide recommendations for improving the system, including an estimate of any potential increase in costs required by such recommendations.

Under current law, a municipality selected as the site for a community residential facility for the disabled can object to the establishment of the facility because the establishment would result in a concentration in the area of community residential facilities for the mentally disabled or a combination of such facilities with other "similar facilities" licensed by other State agencies such that the nature and character of the area would be altered substantially. The Chapter includes as "similar facilities" all community residences, intermediate care facilities, residential care facilities for adults and residential treatment facilities for individuals with mental illness or developmental disabilities operated pursuant to Article 16 or 31 of the Mental Hygiene Law and all similar residential facilities of 14 or fewer residents operated or licensed by another State agency. Prohibits OMH and OMRDD from issuing an operating certificate to a supportive living facility or a supervised living facility which cares for more than 14 residents if the municipality in which the facility is to be established has not been notified in writing of the intention to establish such facility and the notice did not include the specific address of the site, the type of residence, the number of residents and the community support requirements of the program.

The parent may make the standby guardian's authority effective upon the parent's death or mental incapacity or upon the parent's physical debilitation if the parent so consents in writing. The commencement of a standby guardian's authority upon the mental incapacity or the physical debilitation and consent of a parent does not divest the parent of his or her parental rights; the standby guardian would have concurrent authority with the parent.
