DSS-4037EL (Rev. 9/89)

Transmittal No: 94 LCM-55

Date: May 20, 1994

Division: System Support &
Information Services

TO: Local District Commissioners

SUBJECT: Office Automation System Training Needs Questionnaire for
Local District Commissioners

ATTACHMENTS: I: OAS Training Needs Questionnaire
(Avaialbe On-Line)

There have been several queries from Local District Commissioners in the past few months concerning their personal or immediate support staff's use of the Department's Office Automation System (OAS). These queries range from basic "how-to" questions, to requests for guidelines on the use of particular OFIS Link functions, such as sending and receiving e-mail, filing electronic documents, creating distribution lists for electronic correspondence, accessing the Electronic Library, difficulty in printing documents, and sending and replying to speed memos.

Now that statewide implementation of the OAS is complete, with an expanding base of 5,500 customers, and plans are in progress to expand OAS communications to connect with other electronic information networks, Government agencies, and provider groups, its use as a communications tool by Commissioners and their staff is expected to grow, as is the functionality and cost savings. At the same time, the Department will shortly establish Office Automation Computer Training Labs in at least two new locations, Syracuse and Potsdam.

These two initiatives afford an opportunity to develop a customized, Local District Commissioner-targeted curriculum for a hands-on training class that

covers the specific topics that Commissioners recommend. It is certainly recognized that many Commissioners delegate OAS tasks to support staff and may therefore not have a need to attend related training. However, for those Commissioners who use or plan to use OFIS Link on an intermittent basis, we are soliciting your response to the attached training needs analysis questionnaire. The questionnaire has been set up as an electronic document, with automatic tabbing to the response sections. If you are not familiar enough with OFIS Link to complete the document, please feel free to have support staff submit your response. If you have any questions, please contact Susan Amrhein of the SSIS Information Center at AW3390 or (518) 486-7187.

We would appreciate receiving your completed questionnaire via e-mail. Please have the response mailed to OAS ID SR0080 by June 17, 1994.

Thank you in advance for your assistance in helping us assess the need for the above course offering, and your preferences to attend, if any.

John J. DiPalermo
Deputy Commissioner
System Support & Information Services
